Ultimate Cheatsheet

ChatGPT for UI UX

ChatGPT as an UX writer

Prompt

You're a UX writer now. Generate 10 versions of 404 error message for a women only professional social media app.

Response

Sure, here are 10 different versions of a 404 error message for a women-only professional social media app:

1. **Oops! We couldn't find that page.** It may have been moved or no longer exists. Let's get you back to discovering inspiring women and opportunities.
2. **This page seems to have gone off the grid.** Don't worry—your next connection is still waiting for you. Head back to the community.
3. **404 — Page Not Found.** The page you're looking for isn't here anymore. Explore your feed or search for something new.
4. **Looks like this opportunity has moved.** We couldn't find the page you requested, but there's plenty more to discover.
5. **Well, this is unexpected.** The page doesn't exist or may have been removed. Let's get you back on track.
6. **Even great journeys have detours.** This page isn't available, but your professional growth doesn't stop here.
7. **The link you're looking for couldn't be found.** Try searching again or return to your home feed.
8. **Looks like this page took a career break.** Let's help you reconnect with your network and keep moving forward.
9. **Nothing to see here... yet.** This page may have been removed or relocated. Explore new conversations instead.
10. **404. This page couldn't be found.** Let's get you back to building meaningful connections and discovering new opportunities.

Create userflow

Prompt

Can you create user flow for a [app type]?

Response

Sure, I can help create a user flow for a social media app. Here is an example user flow for a social media app:

1. User opens the app and is presented with a Login / Sign Up screen.
2. If the user already has an account, they log in using their credentials. If they are new, they create an account.
3. After authentication, the user lands on the Home Feed where they see content from people they follow.
4. The user can browse posts, discover trending content, or search for people, companies, and topics.
5. If the user wants to create a post, they tap the Create button and add text, images, videos, or links.
6. Before publishing, the user can edit visibility settings, tag people, and preview the post.
7. Once published, the post appears on their profile and in the feeds of their connections.
8. Users can like, comment, share, save posts, and interact with other users.
9. Users can access their profile to update personal information, edit profile details, and manage their content.
10. Users can open Settings to manage notifications, privacy, security, language, and account preferences.

This is a basic example of a user flow for a social media app. Depending on the product goals and features, the flow can include onboarding, messaging, payments, communities, and more.

Design System

Prompt

Write a design system documentation for a [UI Element]?
Represent in a table with the states like default, clicked, hover, active, focus, and disabled. Describe these states with design token (colour, font)

Response Table

Sure! Here's a design system documentation for a primary button component.

State	Design Tokens	Description
Default	Background: #2563EB Text: #FFFFFF Border Radius: 8px Font: Inter 16px Medium	Standard appearance of the button when idle.
Hover	Background: #1D4ED8 Text: #FFFFFF	Indicates the button is interactive when hovered.
Active	Background: #1E40AF Text: #FFFFFF	Displayed while the button is being pressed.
Focus	Background: #2563EB Focus Ring: 2px #93C5FD	Indicates keyboard focus for accessibility.
Clicked	Background: #1E3A8A Text: #FFFFFF	Temporary pressed state before returning to default.
Disabled	Background: #D1D5DB Text: #9CA3AF Cursor: Not Allowed	Indicates the action is unavailable.

These design tokens ensure consistency across all button components within the design system while maintaining accessibility and usability standards.

UX Interview Questions

Prompt

Prompt: Generate a user interview questions for a women only social media app.

Response

Sure, here are some user interview questions for a women-only social media app:

1. What motivated you to join a women-only social media platform?
2. What do you hope to achieve by using this app?
3. How often do you use professional networking or social media apps?
4. What features would make you return to this app regularly?
5. Have you ever felt uncomfortable using other social media platforms? If yes, why?
6. What makes you feel safe and comfortable in an online community?
7. How do you usually discover and connect with new people online?
8. What challenges do you face while building professional relationships?
9. Which features would you prioritize if you could improve this app?
10. Is there anything that would make you stop using this platform?

Colors

Prompt

Can you suggest primary, secondary and tertiary colors for a Women only social media app? Represent in a table.

Response

Sure, here are some suggested colors for a women-only professional social media app:

Color Category	Color	Hex Code
Primary	Royal Purple	#6D28D9
Secondary	Coral	#F97316
Secondary	Navy Blue	#1E3A8A
Tertiary	Lavender	#E9D5FF
Tertiary	Soft Peach	#FDE2E4
Tertiary	Mint Green	#D1FAE5

These colors create a modern, trustworthy, and welcoming visual identity while maintaining a professional appearance suitable for networking and community building.

User Persona

Prompt

Can you create a user persona for a Women only professional social media app? Represent in a table.

Response

Sure, here's an example of a user persona for a women-only professional social media app:

User Persona	Details
Name	Sarah Lee
Age	29
Gender	Female
Occupation	Product Manager
Industry	Technology
Education	Bachelor's Degree in Computer Science
Goals	Expand professional network. Find mentors. Discover career opportunities. Share knowledge.
Pain Points	Limited access to women-focused communities. Lack of mentorship. Difficulty finding authentic networking opportunities.
Tech Savviness	High
Personality	Ambitious, collaborative, curious, lifelong learner.
Preferred Devices	Mobile Phone, Laptop
Frequently Used Apps	LinkedIn, Slack, Notion, Figma, Zoom
Motivation	Career growth, networking, mentorship, leadership opportunities.

Checklist for UI Design

Prompt

Create a checklist for UI elements for a perfect [Screen / feature] in a table

Response

Sure! Here's a checklist for UI elements for a perfect Login Screen.

UI Element	Description
Logo	Clearly represents the brand identity.
Welcome Heading	Friendly introduction to the application.
Email Field	Input field with validation.
Password Field	Secure password input with masking.
Show/Hide Password	Toggle visibility of password.
Forgot Password	Recovery option for users.
Login Button	Primary CTA with clear visual hierarchy.
Sign Up Link	Allows new users to create an account.
Social Login	Google, Apple, Microsoft, etc.
Error Messages	Clear validation and helpful feedback.
Loading State	Indicates login process is in progress.
Accessibility	Keyboard navigation, focus states, screen reader support.
Privacy Notice	Link to Terms & Privacy Policy.

A well-designed login screen should prioritize simplicity, accessibility, and clear visual hierarchy while minimizing friction during authentication.

Speak with annoying clients

Prompt

Negotiate with a client who hasn't paid me the final amount even after delivering the project. Can you generate a message I can send him?

Response

Sure, here's an example message that you can customize and send to your client:

Dear [Client Name],

I hope you're doing well.

I'm reaching out regarding the final payment for the project, which was successfully delivered on [Delivery Date]. According to our agreement, the remaining balance of [Amount] is now due.

I'd appreciate it if you could process the payment at your earliest convenience. If there's any issue or concern regarding the deliverables, please let me know so we can resolve it promptly.

Timely payments help me manage ongoing projects and maintain my schedule, so I'd be grateful if this could be prioritized.

Please let me know once the payment has been processed or if you need any additional information from my side.

Thank you, and I look forward to your response.

Best regards,

[Your Name]
